

# Welcome to the Cliffs of Moher!

“Hello! My name is Pdraig and I’m a puffin. I would like to help you spot some of my friends on land and in the sea. Take care whilst you are here and leave things as you found them to make sure you protect this special place.”

## Choughed to See You!

“Whoa! Did you see that? That was my friend Charlie the Chough. Watch out for him. He looks like a crow with a red beak and red legs – he looks like he is wearing long socks! He’s fast – just like a Ferrari.”

## Fulmar Charm!

“My friends have some very bad habits. Fred the Fulmar is a bird and looks like a gull. He is deadly accurate at spitting! The naughty bird regurgitates foul smelling fish oil from his stomach and can hit any target – so don’t make him mad!”

## Fast Food!

“If you want to see the fastest creature on the planet then you will have to be quick. Peregrine Falcons can be seen swooping down for prey at over 124mph!”

## All at Sea

“While all this is going on in the sky don’t miss what’s happening in the sea! We have Basking Sharks and Bottlenose Dolphins eating and playing in the ocean. Have you seen the Grey Seals too? Find out what else lives in the ocean by unscrambling the letters below.”

# Friends Reunited!

“We have all kinds of mammals on the Cliffs of Moher. My friends include Irish Mountain Hares, which have slightly shorter ears than most other hares. Foxes hunt at night and feed on rabbits and birds. Argh! If you are wondering why you don't see them...they live in their dens through the day – catching up on their sleep no doubt.”

# Who is Who?

“You might be lucky to see Feral Goats, Stoats, Mink and Badgers. Write the correct animal in each box.”

# Word Search

“If you have been quiet and watchful, you may have seen most of the animals in the word search below. Find all of the creatures in the grid and tick those you have seen.”
